

**Pellet and Dome Systems**

For traditional systems, Burlodge has stainless steel pellets, bases and domes to maintain hot food temperatures to the bedside. Available in a range of colors, with outstanding insulation value and an attractive, cost effective tray presentation.

**Features:**

- Pellet – Stainless steel 20 gauge heavy duty with wax core; welded seams; 4 footed pattern to allow air flow through stack for fast heating; excellent temperature maintenance when used with underliner and dome cover.
- Underbase for Pellets or for Plates only – dishwasher safe, stain resistant; inside height from pellet to top inside surface is 2<sup>3</sup>/<sub>4</sub>".
- Dome Cover – Easy to grasp knob; lightly textured surface doesn't show water marks or scratches; excellent temperature retention; low profile – total height 4<sup>3</sup>/<sub>8</sub>".

**Related Items:**

- Fan Assisted Heated Pellet Dispenser – Model TEUH.2.26P (page 21)
- Mobile Dome Storage Rack for 60 or 100 Dome Capacity – Model BDR.60.SS and BDR.100.SS (page 24)
- Trays – 20<sup>7</sup>/<sub>8</sub>" x 14<sup>1</sup>/<sub>2</sub>" – Model G0550 (page 6 – see chart for details)
- Self Leveling Tray Dispenser – Open – Model OTA.53.37 or Enclosed – TAG.153.37 (page 22)

01-Grey	02-Mauve

142.09.00	9" Underliner for Plate No Pellet Required	12	Grey, Mauve, Navy, Plum, Burgundy, Teal
150.09.SS	Stainless Steel Wax Core Pellet	12	

**Ergogrip**

As the name implies, Ergogrip is easy to hold – some of your clients will regain their independence with this well designed dishware. The system includes a heated base, dome cover, thermal mugs, bowls and the 9" Saralex plate. The whole assembled tray weighs half of what a tray with a stainless pellet or an insulated tray weighs, so employees will appreciate the ease of handling as well.

Temperature maintenance is a full 40 minutes, with the ability to microwave the entire assembly if necessary.

The open Ergogrip handles make the bowls and cups easy to pick up. Instead of serving soup in a cup, it can be served in a bowl, and still be picked up for drinking if desired. Appropriate food intake is encouraged with this autonomy.

Royal Blue
Teal
Burgundy

**Features:**

- Lightweight – Heated Base plus Dome weigh less than 1 lb; Base can be heated to 200°F
- Microwaveable – all pieces including the Heated Base
- Non-skid bottoms on bowls
- Attractive colors and Ergonomic Design
- Combination 70°/90° raised edge plate facilitates self-feeding; Can be heated to 120°F
