

**Tray Retrieval and Storage Carts**

**Burlodge has a variety of carts for tray storage and retrieval – take your choice of open or enclosed carts.**

**Open Carts**

**ERWG.18**

18 level space saving model; Racks slide into each other when empty

**RWG.18Z**

18 level model

**RWG.7**

Work table holds seven trays or food pans

Open carts have anti-tip and tray stops on both sides for safety. Constructed of food quality 18/10 stainless steel for outstanding hygiene. Tray slides are welded at 3" spacing. Five inch wheels are mounted on smooth action casters, all four swivel and two lockable. Disc bumper protectors on all four corners.

Work height model has sound deadening material mounted underneath the shelf to minimize noise during transport and use. It can be used at the tray assembly line, for portioning or holding product or trays.

Reference Number	Description	Dimensions			Tray Size	Capacity	Shipping Weight
		Length	Width	Height			
ERWG.18	Space Saving 18 level	29 1/4"	26"	66 1/2"	20 7/8" x 12 3/4"	36	73 lbs.
RWG.18Z*	18 level; shipped unassembled	29 1/4"	26"	66 1/2"	20 7/8" x 12 3/4"	36	73 lbs.
RWG.7	Low, one section model with work surface	29 1/4"	26"	33 1/2"	20 7/8" x 12 3/4"	7	35 lbs.

\* RWG.18Z shipped knocked down – assembly required

**Enclosed Carts**

Designed for retrieving soiled trays from patient units between meals. Various tray sizes can be accommodated - standard cart for Novaflex or RTS 530 trays. Enclosed for safety and hygiene during transport back to the kitchen. Constructed of welded stainless steel. Single door has gravity catch and magnetic hold open. Vertical push handles mounted on back of cart. Two fixed and two swivel (with brakes) 6 inch cushion casters. Full perimeter bumper at base of cart.

Reference Number	Description	Dimensions			Tray Size	Capacity	Shipping Weight
		Length	Width	Height

**Dish Handling Equipment**

**Plate Transporter**

A robust, mobile, single or double sided transport cart, enclosed on three sides, and designed to minimize bending and lifting. Wire dividers are inserted to accommodate various sizes of plates, plate covers, bowls or dessert dishes. Available in wire or solid stainless construction. Transporter is mounted on 5 inch casters, with two lockable. Disc bumpers protect against damage. A fold up front wire shelf keeps stacks in place during transport.

Reference Number	Dimensions			Capacity – Plates	Capacity – Bowls
	Length	Width	Height		
TETW.126.HOCH Single Sided / Wire Construction	40"	20"	37 1/2"	Approx. 150 9 inch plates	Approx. 180 5 inch bowls

TETS.126.HOCH Single Sided / Solid Construction	40"	20"	37 1/2"	Approx. 150 9 inch plates	Approx. 180 5 inch bowls
TETS.226.HOCH Double Sided / Solid Construction	40"	31"	37 1/2"	Approx. 300 9 inch plates	Approx. 360 5 inch bowls

**Other accessories:**

- 011.81.92 Wire Divider for Wire Carts
- 011.81.95 Wire Divider for Solid Carts
- 011.82.15 Front Fold up for Solid Carts
- Plate cassette for plates from 6" to 10" available

**Entrée Plate/Plate Cover Storage**

Transport and store china plates and plate covers easily and safely. China edges are protected by the four molded polyethylene columns which keep china or covers stacked during transport. The unique column design allows for easy two handed loading to prevent accidents.

The one piece design has rounded edges to protect walls. For sanitation, simply wipe down or steam clean. Optional cover provides sanitary storage of dishes. Two models available to hold a variety of dishware sizes. Capacity will vary with the stacking height of the dishware stored. Five inch casters are all swivel, one with brake.

Reference Number	Dish Size	Columns		Dimensions		
		NO.	Cap.	Length	Width	Height
2008	6 3/4" to 8 1/4"	4	40/60	22 1/8"	24 3/8"	31 7/8"
2009	8 3/8" to 9 3/4"	4	40/60	25 1/8"	27 3/8"	31 7/8"

**2008/2009**

Entrée Plate/Plate Cover Storage

**Starter Station**

Burlodge custom starter stations are located at the start of the tray line and are ideal for the storage of cutlery, napkins, condiments, menus, or any items which are individually placed on the tray by the starter position. The station can be positioned over the end of a straight line conveyor or used to the side, with other items stored below the condiment bins.

**BDR.60.SS**

S/S Mobile dome storage rack for 60 or 100 domes
